COND 1.1 · AEROBIC BASE

KEEBRA PARK GRLA — YEAR 7 CONDITIONING

TERM 1 · PRESEASON

4 weeks on this sheet · about 35 min a session

Block aim Build the engine that lets her recover between hard efforts.

QRL 4.2: 60–75% of max HR, 20–40 min. Female athletes respond well to this work given their fibre profile.

NMC — 8 MIN · OPENS EVERY SESSION, FIELD OR GYM

RAISE 90 SEC

- **Skip / bike / 10m shuttles** 60–90 sec
- **Inch Worm** 3 reps
- **Walking Lunge** 5 e/s

SPINE — EVERY SESSION

- **Low Box Step-Down (15–35 cm)** 2 × 6 e/s
- **Jump & Stick Landing** 5 jumps
- **Neck Iso Holds — 4-way** 1 × 10 sec e/way

PICK 3 FROM THE GYM SHEET PHASE

- **Supine Heel Slide Walkout** 2 × 6 e/s
- **Single Leg Glute Bridge** 2 × 8 e/s
- **Clamshell** 2 × 10 e/s

MOVEMENT PREP

4 min · decel before accel, always

DRILL	SET-UP & COACHING CUE	WK 1	WK 2	WK 3	WK 4
Acceleration Wall Drill Wall or partner	**Lean on a wall or partner, hips tall.** Punch the ground away, shin angle out not down. Short, fast steps. *Teaches the accel shin angle before it is asked for at speed.*	**3 × 10m**	**3 × 15m**	**4 × 15m**	**4 × 20m**
Build-Up Sprint Cones	**20m lane, build through the first 10m.** Build, do not launch. Tall, relaxed jaw and hands. *Exposes top-end mechanics without a max effort cold.*	**3 × 20m**	**3 × 20m**	**3 × 20m**	**3 × 20m**

MAIN CONDITIONING

14 min · this is the dose

DRILL	SET-UP & COACHING CUE	WK 1	WK 2	WK 3	WK 4
3-2-1 Continuous Game Cones, whistle	**50m area. Coach calls every change: '3-2-1 sprint', '3-2-1 drop and jog'.** On 'drop', controlled to the ground and back up fast, then straight into the next call. *QRL's own session. Coach controls the walk:jog:sprint ratio, so intensity is dialled live.*	**3 × 6 min**	**3 × 7 min**	**4 × 6 min**	**4 × 7 min**
Ball-in-Hand Continuous Balls, cones	**Grid 30×30. Continuous handling at stride, two-pass minimum before a turn.** Hands early, eyes up. Skill does not drop because the lungs are working. *Gabbett 2006: skill-based games match traditional running for conditioning in rugby league.*	**3 × 4 min**	**4 × 4 min**	**4 × 5 min**	**4 × 5 min**

GAME FINISHER

7 min · skill under fatigue

DRILL	SET-UP & COACHING CUE	WK 1	WK 2	WK 3	WK 4
Off-Side Small-Sided Game Balls, cones	**4v4 or 5v5, 30×30 grid, off-side rules.** Support the carry. Nobody stands still. *Gabbett 2006: skill-based games are an effective alternative to traditional conditioning.*	**2 × 2 min**	**3 × 2 min**	**3 × 2 min**	**3 × 2 min**

RPE 5–6 — AEROBIC BASE
Full sentences. 60–75% of max heart rate. 20–40 min.

RPE 7–8 — REPEAT EFFORT
Short phrases only. Recovery is active, not standing.

RPE 9–10 — MAX / RHIE
Cannot talk. Every effort full intent — if the times drop, stop the set.

Technique rule: if running mechanics, landing or cutting start to fall apart, reduce the INTENSITY before you reduce the volume. Protective movement patterns fail earlier in female athletes than male at the same relative load (QRL Section 4).

CHECK-IN BEFORE YOU START — GREEN — full session · AMBER — cut a bout, keep the quality · RED — NMC and skills only

Hot day or luteal phase — fluids out, move it to the cool part of the day

COACH NOTES — WHO FADED, WHOSE TECHNIQUE WENT, WHAT TO CHANGE NEXT BLOCK
